BeanAir

IoT STARTERKIT

Wireless IOT Temperature and Humidity Sensors

REFERENCE   SK-ONE-TH

DESCRIPTION

This wirelesss IOT Temperature sensor starterkit includes everything you need to setup quickly your environmental monitoring application:

• Wireless Receiver/Gateway with LAN Output, IP67 casing (Ref: BeanGateway® Outdoor)
• Wireless IOT Temperature and Humidity Sensors (ref: BeanDevice® ONE-TH)
• 1 x Free software to collect and display in real-time data measurement from the temperature/humidity sensor
  (Ref: BeanScape® 2.4GHZ LITE)

MAIN FEATURES

- High accuracy temperature sensor, meas. range -40°C to +85°C - accuracy : ±0.1°C
- High accuracy humidity sensor, meas. range 0 to 100% RH - accuracy : ±1.5% RH
- Global License-free band 2.4GHZ, with maximum radio range 650 meters (can be extended to 1km with higher gain antenna)
- Watertight IP67 polycarbonate enclosure
- Primary cell capacity: 2200 mAh (AA size) Lithium-thionyl chloride technology , providing a battery life up to 5 years
- Embedded data logger : up to 1 million data points

Beanair products are Made in Germany and are certified CE/FCC/Giteki

## HOW IT WORKS ?

BeanScape® 2.4GHz
Wireless IOT Supervision Software

IOT Gateway | Outdoor Version

WirelessLink
2.4GHz

Ethernet LAN

BeanDevice® 2.4GHz ONE-TH
Wireless IOT Temperature and Humidity Sensors

BeanAir

WEBLINKS TO PRODUCTS

- Wireless IOT Temperature and Humidity Sensors
- Wireless Receiver/Gateway
- Eco-friendly Monitoring Software
